

DR. BIBBER

Dr. Bibber is the nerve spiral with the PLAYGRND logo on it. It is a game of skill in which a ring must be moved along a spiral from one side to the other without touching the spiral. When the player touches the wire with the ring a buzzer sounds. The player may continue when the buzzer sounds, but it will count as a penalty point.

This game really tests the hand-eye coordination and fine motoric skills of the players.

THE END OF THE GAME

The player who had the least contacts with the spiral at the end of the game is the winner!
